DETAILS:

Boudoir Belle are able to produce **embroidered** and **printed** items, designed specifically to a client's needs or selected from our extensive portfolio.

We can either create exclusive and unique designs / products, work with supplied images, or simply, using one our our existing designs, incorporate your company logo or strapline. The colours used can be selected to match or compliment a campaign or brand.

Quantities

We like a minimum order of 250 pieces, however, we can produce less at a premium cost. We also have a capacity to produce very large quantities. The larger the quantity the more economical the unit cost will be.

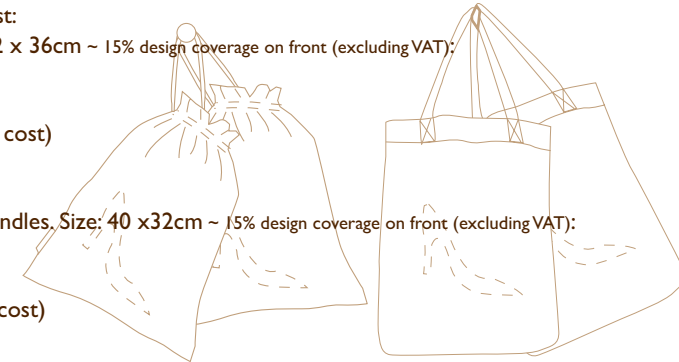

Costs

Each commission is unique. It is therefore difficult to give you an accurate idea of cost until a brief has been supplied. Costs can be tailored to your budget by using alternative material, reducing the amount of embroidery/printing required. The outline of costs below are only a rough indication.

**PLEASE ASK DO NOT TAKE COST BELOW AS FINAL, PLEASE ASK US FOR A FREE QUOTE!**

Material

We can source any finish you require. As well as **cotton, silks and synthetics**, we can now use more natural materials such as **jute and hemp, environmental & organic materials**.

The bags can also be lined with nylon, cotton, PVC lining, with the addition of pockets on the inside or outside.

We can finish bags with zips, beads, metallic threads, ribbon....
